

# ALL COURSES

## COURSES

### Think Green

NEXT UP: FEBRUARY 2023

This course's main focus is to help you deal with your dragon's waste in an environmentally friendly way.

### Mindful Monsters

NEXT UP: MAY 2025

Dragons are very powerful and they control powerful forces such as fire/ice. Aside from that, they are also very large. This course will help you deal with

### Bite or Flight

NEXT UP: OCTOBER 2024

If you've ever been a part of breaking in a horse or any other animal that is ridden, you may be aware that teaching a creature how to accept being strapped down by a saddle isn't the easiest thing. In regards to dragons, this can even be life threatening to you. A little annoyed chomp and your arm could be gone. In this course, we will teach you tips and tricks on how to soften your dragon up to accepting a saddle (their spiked bare backs aren't very comfortable, lemme tell you) and once you're on the dragon's back, we will also teach you about air safety. Some dragons are the size of small airplanes and you will need to treat him/her/they like one. You'll learn how to communicate with air control agencies globally and how to use landing strips, among much else.

### Beauty for the Beast

NEXT UP: MARCH 2032

Even a dragon needs his/her/their teeth brushed! As you can probably understand, this too comes with dangers and difficulties. We are here to help you care for your friend in the safest way possible for both parties.

The course also teaches cleanliness, claw and spike care and tail polish.

## PRE-REQUISITES

To partake in any of our courses you must own a dragon or know someone who owns a dragon.

## AVAILABILITY

Under each course you will be able to see the next planned start of a course.

If you are in need of the course at another date, we are flexible and always willing to bend over sideways to please our customers, so please do not hesitate to contact us for any scheduling requests you may have.

## LANGUAGES

All courses are held in English, but as we are a flexible country we are willing to take any language requests into consideration.
